SUMMARY

QA Engineer with over three years of experience in software quality assurance across blockchain applications, B2C products, and backend systems. Proficient in automation testing, manual testing, API testing, and security testing, with a proven track record of ensuring software quality, system reliability, and application security throughout the development lifecycle. Experienced in building automation frameworks, validating complex business workflows, and partnering with cross-functional teams to deliver reliable, scalable, and production-ready software.

EXPERIENCE

Dec 2025 – Present	Project Lead, Reina	Indonesia
	• Lead development of an AI platform built on large language models. • Own the system architecture and product roadmap. • Coordinate the engineering team through the full development cycle.	
Jul 2025 – Dec 2025	QA Engineer, Union Tools Automation	Indonesia
	• Developed automation testing to speed up regression cycles and improve validation consistency. • Automated integration checks for Discord, Twitter, and GitHub. • Validated cross-chain transaction and communication flows.	
Mar 2024 – Apr 2025	QA Engineer, Initia	Singapore (Remote)
	• Ensured feature quality through functional and regression testing before every production release. • Compiled and shared QA reports with the engineering team to support release readiness decisions.	
Feb 2024 – Jul 2024	Project Lead, Meww RPS	Indonesia
	• Led a blockchain game built on the Dymension network. • Wrote smart contracts in Solidity and built a transparent, verifiable game engine on-chain.	
Jan 2024 – Jul 2024	QA Engineer, Avail	Dubai (Remote)
	• Tested application and infrastructure quality for a blockchain project. • Partnered with the Dymension team on unit testing and system validation. • Caught a critical bug before it reached production.	
2023 – 2024	Automation Engineer, Confidential Client (NDA)	Remote
	• Built test automation for a mobile and web application under NDA. • Covered API and backend integration testing. • Ran security testing across the application surface.	
Dec 2023 – Mar 2024	Project Lead, Meww Pixel Tools	Indonesia
	• Led development of support tools for the Pixels Web3 game ecosystem. • Built a real-time server monitoring system over WebSocket. • Shipped a dashboard with live filtering, used by players to track in-game progress.	

Nov 2023 – Feb 2024	QA Engineer, Dymension	Tel Aviv (Remote)
	- Unit tested blockchain applications from development through production. - Held the network stable across the full release cycle.	
Jan 2023 – Nov 2023	QA Engineer, Celestia	United Kingdom (Remote)
	- Unit tested blockchain features and kept infrastructure stable from staging through production. - Reported results as the basis for system quality review. - Earned the program's biggest incentive-testnet bounty to date.	

EDUCATION

2015 – 2018	Senior High School, SMA Negeri 18	Jakarta, Indonesia
-------------	--	--------------------

KEY ACHIEVEMENTS

Celestia

Earned the biggest bounty of my career so far, awarded through Celestia's closed testnet program.

Meww RPS

Ranked top 10 among participants in Dymension's public testnet campaign, contributing pre-production blockchain testing that helped validate the network before mainnet launch.

Avail

Partnered with the Dymension team to catch a critical bug before it reached production.

Meww Pixel Tools

Successfully maintained stable, real-time infrastructure supporting more than 500 active players.

SKILLS

Testing & QA: Automation Testing, Manual Testing, API Testing, End-to-End Testing, Smart Contract Testing, Penetration Testing

Automation & Security Tooling: Selenium, Appium, Playwright, Puppeteer, Burp Suite, Postman, HTTP Toolkit

Languages & Frameworks: JavaScript, Python, Golang, Solidity, React, Next.js, Node.js, Express.js

Blockchain & Infrastructure: EVM, Cosmos, PostgreSQL, WebSocket

Soft Skills: Project Leadership, Problem Solving, Analytical Thinking, Team Collaboration, Communication, Attention to Detail, Critical Thinking, Time Management

LANGUAGES

Bahasa Indonesia	Native
English	Professional working proficiency
